Welcome!

Fetch Data From Our Database in GeoJSON format

----****US States****----

Retrieve all states at once --> US States API call.

Retrieve states by region (NOT case sensitive) --> Midwest States API call.

Retrieve a single state by name (NOT case sensitive) --> Minnesota State API call.

Retrieve a single state by abbreviation (NOT case sensitive) --> MN API call.

----****/geojson_polygon Sample Assignment****----

Retrieve polygon by ID --> /geojson_polygon API call.

This end point is created just for illustration and mee the assignment in Lab 1.2
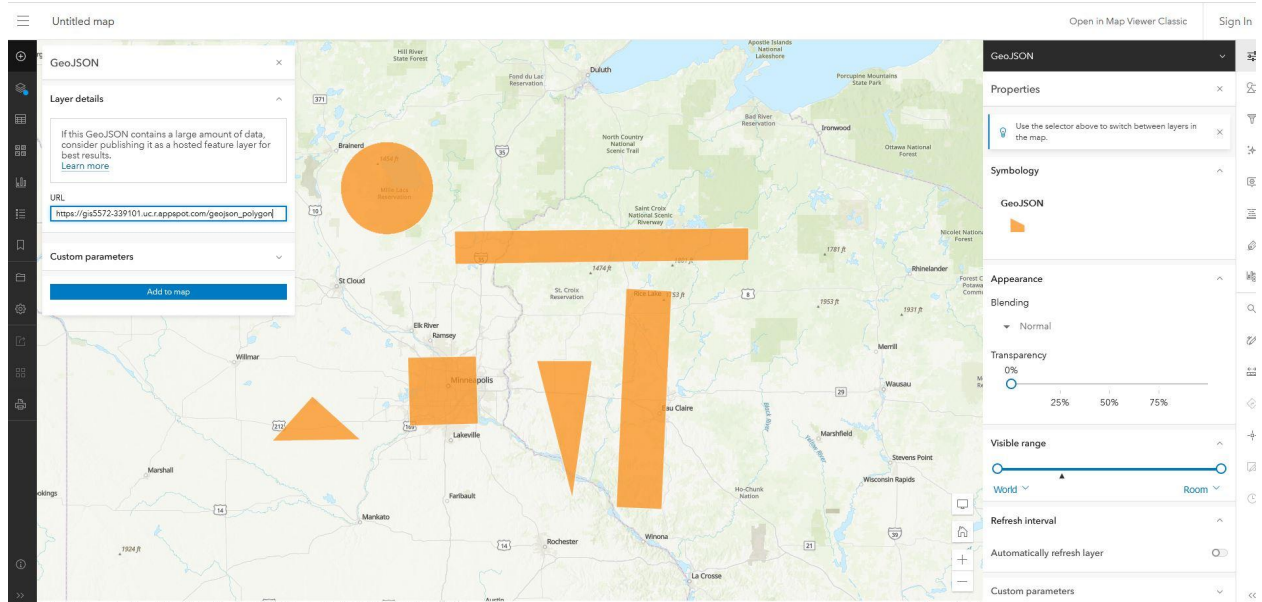

----****About Us****----

This service is developed by **Mohsen Ahmadkhani**

In this HTML component, I provided sample API links to the users providing the ability to download US state data by attribute and spatial scale (i.e., national, region, state/abbreviation).
